

## Furminator

"Since prevention is the best cure, take a close look at the FURminator deShedding Tool. FURminator received paws up from the test dogs. This patented tool utilizes a unique blade that removes dead undercoat and loose hair while leaving the topcoat alone. It features a 1 1/3-inch wide blade with fine 1/8-inch teeth. This tool removes an amazing amount of fur easily.

FURminator's soft ergonomically-designed gripping ridges make it comfortable to hold. Some test dogs who normally don't enjoy being brushed, tolerated the FURminator for a much longer period. Some even purred. This tool's short teeth avoid the risk of scratching sensitive skin."

## Blade GTX Realtree® APG™ Hunting Boots

The new Blade GTX hunting boot series is designed specifically with the active, early season hunter in mind. The 8.5 inch Blade's low-lug outsole is built on the lightweight TERRA FORCE™ X Lite platform and perfect for all-day off-trail stalking while providing support. A GORE-TEX® liner provides the ultimate in breathable, waterproof protection while a full-grain leather and 1000 Denier nylon upper shields you from the elements. The athletic fit and design of the Blade offers comfort and cushioning to maximize your time in the field.

- 1000 Denier nylon upper material is extremely resistant to abrasions, tears, and scuffs, improves breathability, and dries quickly.
- 8.5" of support.
- Extremely lightweight at 48 oz.
